1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Shinomiya et al.

Shinomiya et al disclose (fig.2) a frequency amplifier, which includes op amps, connected in series (11-13) and current control means for varying the bias current supplied to the amplifiers (15-17) (control signal 206).

3. Claims 11-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

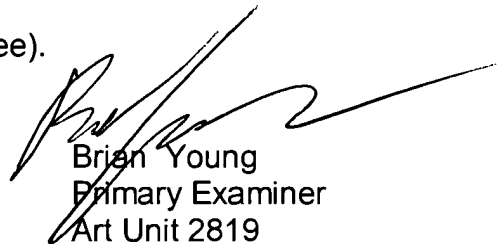

4. Claims 14-20 are allowed.
